SUMMARY

Cloud and Software Engineer with **3+ years** building, deploying and supporting scalable cloud-based applications and enterprise software solutions. Hands-on experience with **Microsoft Azure, Azure App Services, Azure SQL, CI/CD pipelines, REST APIs** and **GitOps workflows**. Experienced in collaborating with developers, business stakeholders and technical teams to deliver secure, reliable and production-ready systems. Currently expanding expertise in **Terraform, PowerShell** and cloud automation engineering.

SKILLS

Frontend

- Angular
- React
- TypeScript
- Tailwind CSS
- Three.js

Backend

- Node.js
- C#
- .NET Core / Web API
- REST API Integration

Database & Tools

- SQL Server
- Azure SQL
- T-SQL
- Git / GitHub

Cloud & DevOps

- Microsoft Azure
- Azure App Services
- Azure Static Web Apps
- GitHub Actions
- CI/CD Pipelines
- Terraform (Learning)
- PowerShell (Foundational)

Testing

- Unit Testing
- API Testing
- Production Debugging

Methodologies

- Agile
- GitOps

WORK EXPERIENCE

Paymali Mobile Payment (Pty) Ltd

March 2026 – Present

Software Engineer • Remote

- Building fintech systems supporting digital payment workflows.

- Integrating frontend applications with backend APIs and merchant systems.
- Supporting cloud-hosted application deployments and platform reliability.
- Collaborating across full product engineering lifecycle.

JVR Africa Group

October 2022 – August 2025

Junior Software Engineer • Remote

- Supported enterprise application environments and infrastructure-related deployments.
- Worked with **SQL Server, APIs and integrated systems** supporting business-critical reporting platforms.
- Assisted with production incident resolution, root cause analysis, system monitoring and performance optimisation.
- Collaborated with developers, testers and infrastructure stakeholders within Agile teams.
- Supported deployment validation, release testing and change implementation.

Supervisor / Reference: Marnus Botha | 071 334 8279

EDUCATION

Bachelor of Science in Mathematical Sciences

April 2020

Major: Mathematics & Computer Science • University of Limpopo

Certifications

- **Microsoft Azure Fundamentals (AZ-900)** • Microsoft
- **Terraform for Azure Infrastructure** • In Progress
- **PowerShell Automation for Cloud Engineers** • In Progress
- **Angular — The Complete Guide** • Udemy

PROJECTS

API Validator

Designed and deployed a cloud-native application on Microsoft Azure using Azure Static Web Apps, Azure App Services and Azure SQL Database.

Built secure REST APIs, automated CI/CD pipelines using GitHub Actions, managed deployments and production release workflows.
